Agenda

Types of Migrations

Preparation

Techniques and Tools

Random Tips I couldn't find another place for
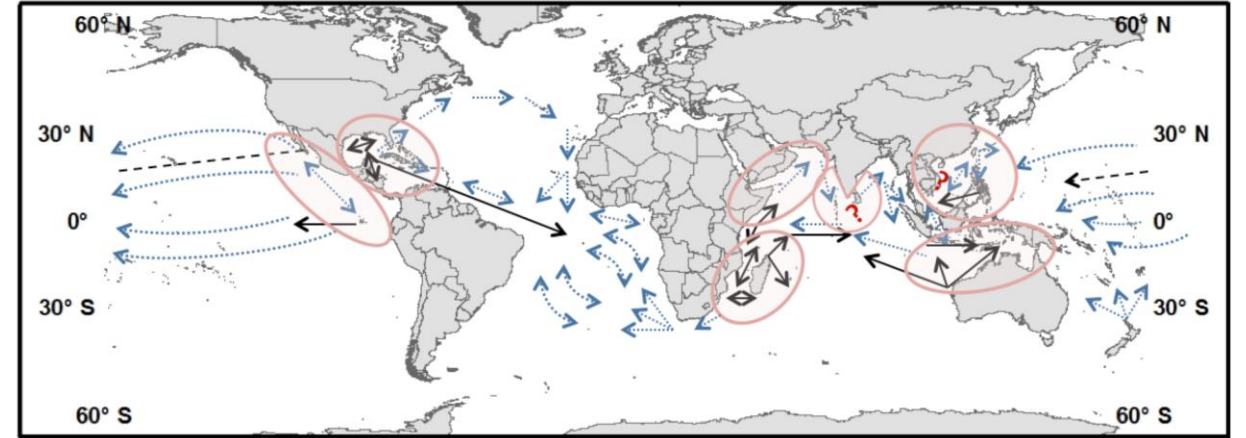

Types of Migrations

Types of Migrations

On-Prem to Online
Online to Online
File Share to Online
Something Else to Online

On-Prem to On-Prem?

Preparation

Preparation

Know what you have

Subwebs?
Broken Inheritence?
Customizations?

Know what's going to make the cut

Will it all go over?
Do you need it to?

Know when it's going

Coordination is key
Some BUs have schedules

What do you have?

Inventory tools

SharePoint Migration Assessment Tool

SharePoint 2010, 2013, and 2016

Large lists, sites, etc.

SharePoint Modernization Scanner

Online to online

Workflows!

Classic pages

My blog post

SPDocKit or ShareGate

What and When?

It's all about the users

What

Work with business owners
Training
Clean up source
The more you clean, the less you move

When

What order
Groups to test
Incremental?
Communication

Information Architecture

Fix those sins of the past

Scale by Site

Assess permissions

Dynamic Groups

memberOf property?

Subwebs to Hubs
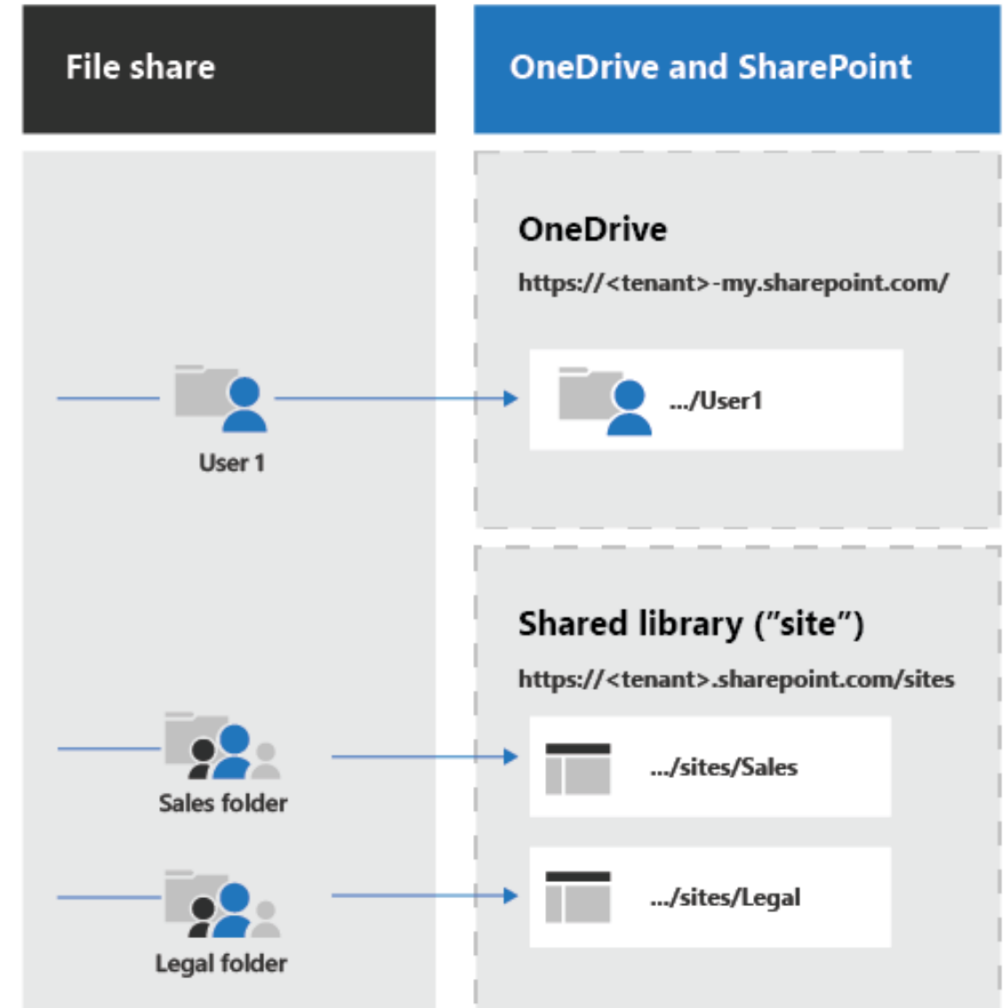

File Shares

Big changes
File Shares to many sites
Get rid of folders
Legal characters
File and folder length
Allowed extensions

Tools and Techniques

How

SharePoint Migration Tool

Microsoft Migration Manager (Mover.io)

PowerShell

3rd Party Tools

OneDrive Sync Client

Mix and match techniques and tools

Massage the data as it goes

Post Migration Work

Work with business owners
Communicate with users
Lock up source content
Have plan for deleting it

Tips

- Client is the bottleneck
- Smaller files and versions are slow
- Managed Metadata
- Workflows, oh boy
